

# **Breakout 3: Setting Priorities**

(One More Time)

# Overall Goal of Breakouts: Fill in the Map

# Strawman Program Motivation and Goals

---

## Overall goals:

1. Have a clear understanding of the technical requirements for O&M for several Advanced Reactors
2. Reduce fixed O&M cost from ~13 \$/MWh in the current fleet to ~3 \$/MWh in the advanced fleet

## Most likely path:

1. Translate existing technologies to advanced reactor designs and develop technologies to fill in the gaps
2. Reduce total staffing level from ~750 FTE/GWe to ~50 FTE/GWe

# Strawman Program Structure

---

A program structure could ask each performer team to do one of the following for an advanced reactor design (or even better, a collection of advanced reactor designs):

1. Develop and test the technology to automate one complex maintenance task.
2. Develop and test a plan for APM to reduce the cost and/or time burden of maintenance by 90%.
3. Develop and test the enabling technologies (e.g., sensors, controls, verification and validation approaches) to make reactor control substantially autonomous.

# What to Talk About

---

- ▶ What does success look like in a 3-year program? How do you measure or set targets for that? Where do we need to get to have a path forward 5 years from now?
- ▶ Are these the right goals?
- ▶ What does our map of Risk vs. Impact look like?
- ▶ Is this the right program structure?

# Key Focus Questions

---

Q1: How would you define success for this program?

Q2: What should the program goals be?

Q3: Which topics should we fund and what would be aspirational targets to hit over the next 3-5 years?

Q4: What program structure would best accomplish the goals?

# Some Additional Thoughts

---

- ▶ ARPA-E programs are traditionally \$30M over 3 years split across 8 to 15 teams.
- ▶ That's not how they have to look
  - We can have phases, with more teams at the start and then a downselect point
  - We can hold competitions
  - We can have smaller or larger programs

# Some Additional Thoughts

---

**RULE:** No one is allowed to say  
“we can’t do that because of  
regulations”

# Now What?

---

- ▶ Check breakouts assignment list for which room to go to this time
- ▶ An ARPA-E facilitator will lead the discussion. Please be respectful and give everyone a chance to contribute.
- ▶ **Discussions start at 10:00 am**
- ▶ **Return to this room at 11:30 am for wrap up**
